
Ms. Howland,

I support the call by House members to temporarily suspend the PUC docket on the new statewide energy efficiency plan. The state should not add costs to our electric bills until we have a better idea about how the pandemic downturn will affect us all. We must care about preserving jobs first, and we must protect the pocketbooks of people who have lost a job due to no fault of their own.

Our state's economic recovery from the pandemic downturn needs to avoid an increase in electricity and gas costs!

Please share my thoughts with the commissioners.

Regards,

Deborah L. Hobson
