

---

To whom it may concern

I own a commercial building in Exeter as well as my residence in E. Kingston.

The Pandemic has reversed 10 years of consecutive growth and caused significant harm to our business and our employees.

In order to keep our employees employed, we had to freeze wages and those at the top had to take a 20% pay cut.

It would be an insensitive time to raise utility costs on business and the homeowner right now.

Please fight to stay this action for a min of 1 year.

Thank you
