Public Utilities Executive Director
21 South Fruit Street, Suite #10
Concord, NH 03301-2429

Dear Director Howland,

As a consumer and ratepayer of the New Hampshire Electric Coop, I am writing in strong support for the Triennial Energy Efficiency Plan for 2021-2023. I believe that the economic benefits to the State in terms of savings to consumers from this Plan will outweigh the costs to fund it.

I am dismayed to hear that a small group of newly elected representatives to the State legislature have requested that the PUC put this Plan on hold indefinitely; I urge you to resist this political pressure and go forward with the Plan according to the timing stated. The fact that the surrounding New England states have already made more progress than NH in instituting energy efficiency measures that will benefit their economies makes it even more important that the NH PUC continue to implement this Plan.

Thank you for your time and consideration.

Sincerely,
