---

I am writing as Secretary of Kearsarge Climate Action and as a concerned home owner in the Sunapee Kearsarge region. Our group has worked on spreading the word locally about NHSaves and weatherization over the past three years. Local homeowners have weatherized their homes with seed money through NHSaves, which would not have been possible for most of us without this valuable program. Weatherizing our homes has helped us to save money on heating and our homes to be more comfortable.

My concern is the inability of the PUC to make a decision to move forward with the triennial plan agreed upon last year by the NH electric companies. To not fund this program adequately is short sighted, leading to less energy efficiency, higher heating bills by both residents and businesses, and decreased good jobs in NH in this field.

Sincerely, Joy Kubit
