Dear Commissioners,

I am writing to support an increase to funding for the plan that support energy saving programs like NH Saves. We used it 2 yrs ago to reduce our heating bills and NH residents need that help now more than ever.

Please reconsider your funding cuts for this program. I do not believe it is in the best interest of NH residents, on many levels. It seems to be a short-sighted decision that will also hurt small businesses.

Thank you for your consideration,
