Subject: The new PUC order setting the incentive cap for that funding at \$8,000 per project.

EXTERNAL: Do not open attachments or click on links unless you recognize and trust the sender.

Good Evening,

We had an energy evaluation done on our home this year and upgraded our insulation. The cost was \$19,000. Even with the incentives my out of pocket cost was over \$9000. I am retired living in Canterbury and could not afford to have done the upgrades without those incentives.

Now you put a cap on these projects this low. Are you going to ask the installers to limit their cost. I am sorry but it seems you believe your job is to take care of the utility companies rather than the people of New Hampshire. I am appalled by your decision and wish to file a complaint against you. Please advise me of the process.

Thank you,

Thomas D. Hedberg
