Again I am requesting a full explanation regarding why the NHSaves program has been halted! Consumers in this state deserve to know why this vital program has been ended. Is this temporary or permanent? At a time when power is so vital in the northeast sector due to winter conditions I would think a program that would save energy would be a priority for not only consumers but for your commission.

Please respond as to where, if not here, I can secure a detailed explanation of this decision.
Thank you!
