Hello,

I would like to file a complaint again you the PUC. Your recent decision to cut funding for NHSAVES programs has left a lot of people in limbo. I am someone who has relied on this program to make energy efficient upgrades to my own house. I installed a mini split heat pump this fall and was anticipating getting a rebate but because of your abrupt decision to end this program I will not be able to get a rebate which is incredibly frustrating. Making houses more energy efficient is in everyone's best interest. We should not be moving backwards on these issues.
