Dear Public Utilities Commission - I am writing to urge the Commission to rescind its decision (Docket No. DE-20-092) shutting down the NHSaves program.

I join with Senator Shaheen and numerous others who have commented on what an egregiously bad and short-sighted policy this decision would implement.

I'm writing as a person whose rebate for the installation of a new mini-split heat pump is in jeopardy because of this decision, but more importantly, as a resident of New Hampshire who believes that energy efficiency is critically important for the survival of the planet. Please reinstate NH Saves.

Thank you.
