---

The increase in rates for gas by Liberty Utilities is out of line for what is taking place in N.H. now. A more reasonable increase, instead of 9.2%, is let them keep the 4.5% rate permanently.

Nobody nor any businesses are increasing rates by almost 10%. As you realize our unemployment is very high and people are struggling to pay their bills.

Please consider the increase very carefully of what people can afford.

Than you,
