To Whom It May Concern;

I am writing to voice my objections to the proposed rate increase by Hampstead Area Water Company #26437.

I am a resident of Little Mill Woods Condominium Association and also on the Board of Director's, residing in Sandown, NH; which is an over 55+ community. Most of the residents here are retired and live on a fixed income; an increase would be a financial burden on the residents. It not only effects the community but also all residents that are served by Hampstead Area Water Company.

As we are in a pandemic in which people have lost their jobs, unable to pay rent/mortgage, unable to provide food for themselves or family, unable to pay utility bill or heating bill, which adding this increase would add to the burden and stress on everyone..

I appreciate NHPUC for taking the time to review concerns from people affected by Hampstead Area Water Company's request for the rate increase. I believe that their request is unreasonable, not only to Little Mill Woods residents, but also to other communities that will be affected by this rate increase.

Thank you,

Barbara Leclercq
Little Mill Woods Condo resident
