Subject: Pennichuck Rate Increase Docket #DW20156

EXTERNAL: Do not open attachments or click on links unless you recognize and trust the sender.

Ms. Akerman:

This is to register our objection to the propose rated increase being sought by Pennichuck East Utility, Inc.

My husband and I have lived in Litchfield for 49 years. For 46 of those years, we had our own well. Then came St. Gobain, they poisoned our well and Pennichuck took over. We now have, through no fault of our own, an average monthly bill of about \$45 to have water in our home. Some months we pay more for the service charge than the actual water used! And Pennichuck wants to raise the rates substantially? Those rates that are already the highest of any surrounding community?

We should not have to pay for this service at all. St Gobain destroyed our well and they should be picking up the costs of providing water to us. But that's another story for another day. Please note our objection to the requested increase by Pennichuck.

Thank you for your attention to this.

Sincerely,

Fran Martineau
