**Subject:** PEU increase

Hello,

I am writing in regards to the proposed increase in water rates for Litchfield NH residents from Pennachuck East.

We purchased a home in Litchfield 3 years ago. Once we took ownership of the home we realized that the water was an issue. Not only was it extremely expensive, it was BROWN and contained PFOA's, this according to their own website data sampling.

We have had to put in a whole house filter ( at a substantial cost ) to filter the water to give to our children. All while paying an exorbitant amount of money to this company. Now we're are being told they want to increase the cost... of brown, contaminated water. This is outrageous. I feel as though this company is taking advantage of a bad situation ( Saint Gobain poisoning of town wells) and trying to profit off them, while not fixing/ or even pretending to fix the current issues.

This is unacceptable.

Please deny the request for increase in funds.

Sincerely,  
Samantha McClelland
