

Dear Public Utilities Commission representatives,

I leant with great concern of the proposed water rate increase for our town, and I find it exorbitant, unjustified and unjust toward our small town, and I hope you seriously reconsider this proposal to bring it down to an either a zero increase, or even better lowering our rate to match the average charged in our neighboring towns.

From what I can gather in public information, Litchfield pays between 3 times and 6 times more than its neighbors, and it seems to me that, even with our small population, we are helping subsidize the service and improvements Pennichuck provides to all serviced towns.

I would appreciate a lot if you reconsider this rate increase, it would go a long way to help the people in our town keep their expenses manageable, particularly in this time of extreme need.

sincerely,

Jorge (Martin) Heller
