

To Whom It May Concern,

I wanted to email you to discuss my disapproval of the plan to raise the water rates for the Town of Litchfield by Pennichuck. Litchfield pays excessive rates already for its water and receives terrible water service. Our town has seen no investment from the company and while water quality and pressure is not great at times I see no reason our town should be getting an increase. With no plans to improve any of the system in Litchfield this seems more like a money grab from our towns residents to fund other projects elsewhere. There is no reason for your department to grant this increase and I ask that it be struck down.

Joseph Lupinski
Town of Litchfield resident
