Subject: PEU Rate Increases

EXTERNAL: Do not open attachments or click on links unless you recognize and trust the sender.

Good Afternoon --

My family and I recently moved to Litchfield this past year and read about the outrageous proposed rate increases on water. I am writing to express our frustrations and to protest the proposed rate increases for water costs in Litchfield, NH by Pennichuck. The proposed rate increase is astronomical compared to the 29 surrounding communities that Pennichuck East Utility services.

This is extremely unfair to the residents in town who have had to abandon their wells due to the St. Gobain PFOA issues and were forced to resort to a decision of using water from Pennichuck, which many residents consider as poor quality water.

I feel as though this company is taking advantage of a bad situation (St. Gobain issues) and trying to profit off them, while not fixing any of the current issues (poor water quality, brown water, etc.).

Please deny the increase in rates.

Sincerely,
Kaitlyn & Kyle McGuinness
