**Re: Docket No. DW 20-184 - Request for Change in Rates
Aquarion Water Company of New Hampshire, Inc.
Updated tariff pages reflecting temporary rates – 2nd corrected filing**

Chair Martin:

Pursuant to the New Hampshire Public Utilities Commission (“Commission”) Order No. 26,488 in Docket No. DW 20-184 and Puc 1603.03, the attached revised updated tariff pages are being filed on behalf of Aquarion Water Company of New Hampshire, Inc. These updated tariff pages reflect the temporary rates as agreed upon by the parties to the settlement agreement in this docket, approved by the Commission in the above-mentioned Order.

This corrected filing is submitted pursuant to a letter from the Commission’s tariff administrator dated August 18, noting that on page 12, the price category for a 10-inch meter was missing, and requesting that Aquarion clarify the reason for that omission. The omission was not deliberate, and no change has been made to the meter size offerings; the 10-inch meter category was inadvertently truncated from the revised page 12. The page has been corrected to include the 10-inch meter price category. All revised annotated tariff pages are being filed as specifically required by Order No. 26,488, as noted at the bottom of each revised page.

Following the March 17th letter of the Commission this compliance filing is being made electronically only; paper copies will not follow. If you have any questions, please contact me. Thank you for your assistance with this matter.

Regards,

Jessica A. Chiavara
Counsel, Eversource Energy
