Public Utilities Commission,

To the Public Utilities Commission,

I can't even tell you how dispiriting it is that, after Granite Bridge was defeated, Liberty Utilities is BACK in NH looking for additional gas capacity contracts via DG 21-008.

Simply put, we are out of time. We cannot keep building new fossil fuel infrastructure, and that Liberty wants to keep trying to expand fracked methane gas usage in NH is just outrageous.

Please reject the Liberty Utilities request and help us focus on energy efficiency and renewable energy projects.

Thank you.
