

Unitil Energy Systems, Inc.
Docket No. DE 21-030
NHPUC Record Requests – 3/3/22 Hearing

Date Request Received: 3/4/2022
Request No. NHPUC RR 1-1

Date of Response: 3/11/2022
Witness: C. Goulding & D. Nawazelski

REQUEST:

Please complete the Key Performance Metrics worksheets for Unitil Energy Systems, Inc. and its parent company attached to this order.

RESPONSE:

Please refer to NHPUC RR 1-1 Attachment 1 for the Key Performance Metrics worksheet.

Unitil Corp., the parent company of Unitil Energy Systems, Inc. (“Unitil” or the “Company”), does not directly own or operate electric distribution assets. As such, the Company can only provide information specific to Unitil Corp. in the “Company Finances” section of the “Parent Company” tab of the Key Performance Metrics worksheet.

Because Unitil interprets the Commission’s request to seek comparative information, the Company has included information for its other regulated electric distribution affiliate, Fitchburg Gas and Electric Light Company (“FG&E”), in the “Ratepayer Costs,” “Company Assets,” and “Company Service Reliability” sections of the “Parent Company” tab. However, the Company believes it is important to note that no two utility companies, including Unitil and FG&E, can be directly compared on an “apples to apples” basis. In the case of Unitil and FG&E, the requested “performance metrics” may be impacted by, among other things, the location and demographic composition of their respective service territories, state regulatory rules and obligations, and capital investment requirements. Nevertheless, the Company has provided the FG&E-specific data for informational purposes to the Commission.
