UNITIL ENERGY SYSTEMS, INC.

2021 Default Service

ORDER OF NOTICE

On March 9, 2021, Unitil Energy Systems, Inc. (Unitil) filed with the Commission a notification of its proposed 2021 default energy service schedule. The schedule indicates the dates for: (1) issuance of the request for proposal (RFP) for power supply, (2) submission of indicative and final bids, (3) filing the proposal with the Commission, and (4) issuance of the anticipated Commission order on the petition. Unitil provided the applicable information for the six-month period beginning June 1, 2021, and the six-month period beginning December 1, 2021.

Unitil conducts its default service solicitations pursuant to the process approved by the Commission in Orders Nos. 24,511 (September 9, 2005) and 24,921 (December 12, 2008), as modified by Order No. 25,397 (July 31, 2012). In Order No. 25,397, the Commission approved Unitil's proposal to modify its energy service procurement process as follows: (1) the default service period for customers taking energy service supply from Unitil begins on June 1 and December 1 of each year; (2) for G1 (large commercial and industrial) customers, pricing is based on variable monthly prices and solicitations occur every 6 months; and (3) for non-G1 (residential, small commercial, and outdoor lighting) customers, solicitations occur every 6 months, and pricing results in fixed monthly rates for the six-month period. In addition, for non-G1 customers, the load is separately acquired, and priced, for both the residential customer group, and the small commercial and outdoor lighting customer group. For G1 customers, Unitil solicits variable pricing that passes through energy costs in the form of real-time locational

market prices (LMP) for the New Hampshire Load Zone. Respondents to the RFP are asked to bid fixed adders to the LMP that would cover all other costs of supplying power, including a margin of return.

On March 2, 2021, Unitil issued the RFP for energy service power supply for all three customer groups, for the six-month period beginning June 1, 2021. Unitil will file a petition requesting approval of this solicitation on April 2, 2021, and has requested an order issue by April 9, 2021. Unitil will issue the second RFP on August 31, 2021, for the six-month period beginning December 1, 2021, with the associated regulatory filing to take place on October 1, 2021, requesting that the order approving the solicitation be issued by October 8, 2021.

The petition and subsequent docket filings, other than any information for which confidential treatment is requested of or granted by the Commission, will be posted to the Commission's website at <https://www.puc.nh.gov/Regulatory/Docketbk/2021/21-041.html>.

The filing raises, inter alia, issues related to whether the power supply procurement is consistent with RSA 374-F:3, V(c)-(e) and Order Nos. 24,511, 24,921, and 25,397; and whether the resulting rates are just and reasonable as required by RSA 374:2, and RSA 378:5 and :7. Each party has the right to have an attorney represent the party at the party's own expense.
