

STATE OF NEW HAMPSHIRE
PUBLIC UTILITIES COMMISSION

Liberty Utilities (EnergyNorth Natural Gas) Corp. d/b/a Liberty

Keene Division Summer 2021 Cost of Gas

Docket No. DG 21-050

Affidavit of Steve Rokes

I, Steve Rokes, state as follows:

I am the Manager of the Keene Division of Liberty Utilities (EnergyNorth Natural Gas) Corp. I am responsible for the Company's operations in Keene. The six Keene-based operations employees report to me; I report to Robert Mostone, Director of Gas Operations for all of Liberty.

I have held this position since Liberty's acquisition of the Keene system in 2015, and I held similar positions with prior owners of the Keene system for many years.

I have been involved in all aspects of the Company's installation and operation of the CNG decompression facility located at Production Avenue in Keene, and I am thus very familiar with that facility.

Attached to this affidavit are two photographs taken by me, which confirm the physical location of certain aspects of the CNG facility that are defined in the June 2, 2021, contract. The first photograph (page 2 of 3) shows the hose connection to the CNG truck trailer, which is the "demarcation point" where Liberty's responsibility for the operation and maintenance of the CNG decompression facility begins.

The second photograph (page 3 of 3) shows the "Seller's Meter" which is the "Delivery Point" referenced in the CNG Agreement.

 6/9/2021
Steve Rokes
