This represents a 33% increase in rates over the current period of \$0.06627 per kWh. For the Large Customer class, the proposed monthly rates are presented below next to the monthly rates from the current period.

Menard explaining the competitive RFP process used by Eversource for procuring ES, the results of the solicitation, and the required adjustments that have led to the retail rates proposed to be charged to Eversource’s ES customers. Consistent with N.H. Code Admin. Rules Puc 201.06 and 201.07 certain of the information relating to the RFP and the responses to it are being filed confidentially with the Commission.
