Hello Chairman Goldner,

I urge you to support Docket 21-078. Access to convenient charging for electric vehicles should not be only for the wealthy and those who live in cities. Those of us who live in rural areas need access to reliable charging options, as many of us plan to purchase an electric vehicle if at all possible. This is to protect the environment but also for practical purposes, energy security.

Please support Docket 21-087.

Sincerely,
Jane Hershey
