Re: Docket No. DE 21-078 Petition for Electric Vehicle Make-Ready and Demand Charge
Alternative Proposals
Public Service Company of New Hampshire d/b/a Eversource Energy – tariff
compliance filing

Dear Chair Goldner:

In compliance with the New Hampshire Public Utility Commission’s (“Commission”) Order No. 26,667 issued on August 15, 2022 in Docket No. DE 21-078, the following tariff pages are provided on behalf of Public Service Company of New Hampshire d/b/a Eversource Energy (“Eversource” or the “Company”):

NHPUC No. 10 - Electricity Delivery
Public Service of New Hampshire d/b/a Eversource Energy
Original Page 65-E
Original Page 65-F
Original Page 65-G

Effective: December 15, 2022

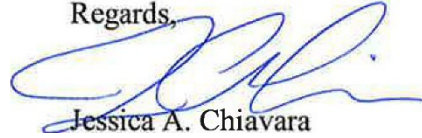

In Order 26,667 on page 11 in the ordering clauses, the Commission approved the demand charge alternative rate design (“Rate EV-2”) to take effect September 1, 2022 and directed the Company to file a tariff conforming to its Order within 15 days of the issuance of the Order. However, on page 8 of the Commission-approved settlement agreement in this docket, the Company noted that Rate EV-2 would take four months to implement from the date of Commission approval. As there is no reference to a possible September 1 effective date in the record and the Commission approved the settlement agreement, Eversource concludes that the September 1 effective date was an oversight, and the Commission would have authorized a December 15, 2022 effective date taking into account the settlement agreement and the capability of the Company. For this reason, the effective date on the conforming tariff pages is December 15, 2022—four months from the Commission order.

Both clean and annotated tariff pages denoting the new rate are provided in this filing. Consistent with current Commission policy, this filing is being made electronically only; no paper submissions will be made.

Please contact me if you have any questions regarding this matter.

Regards,

Jessica A. Chiavara
Senior Counsel, Eversource Energy
