2018	\$ 0.01864	-19.6%	\$ 0.02363	-16.5%	\$ 0.02569	14.5%
2017	\$ 0.02318	5.7%	\$ 0.02831	15.2%	\$ 0.02243	5.6%

\*Proposed

- (a) Prior to 2020, the transmission rate in CT changed semi-annually. For comparison purposes, the Company used the rate that was set in July of each year.
- (b) In July 2020 Connecticut filed for approval of an average transmission rate of \$0.03395 per kWh, however the Public Utilities Regulatory Commission in CT suspended all rate increases due to the COVID-19 pandemic. The under recovered balances due to the temporary suspension of rates is expected to result in a transmission rate change in October 2021 with the prior under recoveries being amortized over a period yet to be determined.
- (c) MA rates change on January 1st each year.
