**Subject:** Liberty Gas winter gas supply high price increase - docket DG 21-130

**EXTERNAL:** Do not open attachments or click on links unless you recognize and trust the sender.

---

Hello, this is a formal complaint letter requesting that the PUC.NH **NOT approve the Liberty Gas proposed max price for winter 2021/2022 of .9256.**

My current bill's rate is .39333. How can Liberty justify an almost triple increase one month from now? I called them and they said "it always goes up in the winter"  
Well that's taking advantage of customers who need more gas in the winter.

It is up to the Commission to protect its citizens against unnecessary price increases like this and NOT APPROVE the proposed rate increase. Last winter the highest amount charged was .57771. There are no gas crisis going on in the world this winter. No blocked canals, not piping disasters. No logical explanation. No reason other than it is winter so let's get what revenue we can out of customers when it's cold.

Please take this request seriously. Thank you

Kind regards,

Stephanie Moll
