---

To Public Utilities Commission,

This email is to file a complaint against Liberty Utilities and the purposed gas price increase up to .9256 per therm.

This is a huge price increase from the .393 per therm that I am currently paying. I know that there is always a price increase for the winter but it has never been so large. Last winter's price was .577 and a 60% increase for this year seems unreasonable.

I realize that we are in a time of raising prices but the inflation rate I believe is at a high of 5%. How does Liberty Utilities justify a 60% rate increase?

I encourage you to deny this request.

Thank you for your time.
