Re: **Northern Utilities, Inc. -- DG 21-131, 2021 / 2022 Annual Cost of Gas and Associated Charges Filing**

Dear Chairwoman Martin,

Northern Utilities, Inc. (“Northern”) has determined that two red-line tariff pages submitted in its 2021 /2022 Annual Cost of Gas Factor filing contain incorrect information and is hereby including corrected versions of these two pages. In Northern’s September 17, 2021 submittal, red line tariff page 43 shows the current COG rate based on the initial calculation instead of the revised calculation, and red line tariff page 85 does not accurately show the revision of the low income discount for Rate Schedule R-10. Therefore, Northern hereby submits a corrected version of red-line tariff pages 43 and 85.

In accordance with the Commission’s temporary moratorium on paper filings, the Company is submitting these tariff pages only in electronic format.

In addition, Northern has determined that an updated COG filing will need to be filed in order to reflect significant increases in projected commodity costs due to rising NYMEX futures prices. The Company hopes to submit this updated filing on or around October 8, 2021.
