February 3, 2022

Daniel C. Goldner, Chair
New Hampshire Public Utilities Commission
Suite 10, 21 South Fruit Street
Concord, NH 03301

Re: DE 21-141, Town of Harrisville

Chair Goldner:

On January 26, 2022, the New Hampshire Public Utilities Commission (the "Commission") issued a Memorandum of Decision in the above-referenced docket that determined the Town of Harrisville's Electric Aggregation Plan ("EAP") failed to meet certain statutory requirements applicable to EAPs. We are responding to the Commission's Memorandum.

The Town of Harrisville understands the Commission's decision in the Memorandum was a result of the fact that rulemaking related to municipal and county aggregation commenced on January 5, 2022, in Docket No. DRM-21-142. The Commission determined that the rulemaking "may result in additional requirements that could have substantive impacts on the Commission's evaluation of the Harrisville Community Power Electric Aggregation Plan."

As a result, the Commission suggested that the Town re-submit the plan "when the rulemaking process is closer to completion or has concluded," which the Town of Harrisville will be prepared to do at that time, thank you.

As a result of this timing, however, the Town of Harrisville is concerned that a delay in the approval of the aggregation rules will cause an additional delay in the Town's implementation of its community power initiatives.

Therefore, the Town respectfully requests that the Commission approve municipal and county aggregation rules as quickly as possible. This will allow the Town of Harrisville to move forward with our community power plan on the timeline approved by our residents.

Town of Harrisville Select Board
