**Re: Docket No. DE 22-010
Public Service Company of New Hampshire d/b/a Eversource Energy
2022 Regulatory Reconciliation Adjustment-Record Request Response Revised**

Dear Chairman Goldner:

Enclosed for filing on behalf of Public Service Company of New Hampshire d/b/a Eversource Energy (the "Company") in the above-referenced docket, please find the Company's revised Attachment RR-001 (1). This Attachment has been revised to address comments received from the Department of Energy ("DOE") during a technical session held on July 11, 2022. At the technical session, DOE noted that Tabs Att RR-001(C) and Att RR-001(D) included in the enclosed Excel attachment were difficult to cross-reference with the Company's FERC Form 1. Specifically, DOE stated that it was not clear which columns in Tabs (C) and (D) related to the distribution, transmission, or generation segments of the Company's business. To address this feedback, the Company has added the appropriate business segment descriptions to these tabs.

It was also brought to the Company's attention during the technical session that the publicly available version of its FERC Form 1 had been truncated. The Company's Accounting Department will file a revised version with the Commission; a copy of the non-truncated version of the FERC Form 1 is also enclosed for ease of reference. These changes are intended to provide additional clarity in support of the Company's response to subpart (d) of the record request.
