**Re: Docket No. DE 22-035; Liberty Utilities (Granite State Electric) Corp. d/b/a Liberty  
Request for Step Increase**

Dear Chairman Goldner:

On behalf of Liberty Utilities (Granite State Electric) Corp. d/b/a Liberty, attached please find the *Technical Statement of Heather M. Tebbetts*, with attachments. This filing supports the Company's request for an increase in distribution rates arising from a miscalculation in the rate reduction arising from the removal of recoupment and rate case expenses that were approved in this docket. The Company requests a hearing on this technical statement with revised rates to go into effect June 1, 2023.

The Company also requests a waiver of the requirement to file clean and redlined versions of the updated tariff pages due to the timing of the filing and will file updated clean and redlined versions of the updated tariff pages with the tariff compliance filing.

Puc 1603.05(a)(1) states: "A utility that proposes to revise an existing tariff shall submit ... [t]he entire page on which any revision occurs." The Company notes that tariff pages filed now to reflect how the requested rate changes vary from existing rates may not be inaccurate given the pending tariff pages in this and other dockets that the Commission has not yet determined to be compliant. Absent such a finding of compliance, the Company would either have to show changes to the last complaint pages (which is unreasonable and unhelpful given that the Commission has approved rate changes since then) or show changes to those pages that have not yet been found compliant (which may also change).

Daniel Goldner, Chairman  
April 6, 2023

The Commission “shall waive the provisions of any of its rules ... if the commission finds that: (1) The waiver serves the public interest; and (2) the waiver will not disrupt the orderly and efficient resolution of matters before the commission.” Puc 201.05(a). When considering whether a waiver request serves the public interest, “the commission shall waive a rule if ... [t]he purpose of the rule would be satisfied by an alternative method proposed.” Puc 201.05(b).

The Company proposes an alternative to satisfy the intent of the rule by filing clean and redline tariff pages following the Commission’s determination on the pending compliance pages and following the resolution of the request in this docket. Those redlined tariff pages would clearly show the impact of this docket. The Company offers to file such pages within 5 days of the latter of an order in this docket and approval of the pending tariff pages.

The Company also proposes a hearing date of May 25, 2023, at 10 AM.

Thank you.

Sincerely,

A handwritten signature in black ink, appearing to read "M. Sheehan".
