Re: **Docket No. DG 22-045; Liberty Utilities (EnergyNorth Natural Gas) Corp. d/b/a Liberty Winter 2022-2023 and Summer 2023 Cost of Gas**

**Docket No. DG 22-057; Liberty Utilities (EnergyNorth Natural Gas) Corp. d/b/a Liberty Keene Division Winter 2022-2023 Cost of Gas**

Dear Chair Goldner:

The Motion for Rehearing of Order No. 26,737 filed in the above dockets earlier this date incorrectly stated that Northern Utilities' tariff included the same Federal Reserve interest rate as appears in Liberty's tariff. The reference missed a revision to Northern's tariff that now includes the Wall Street Journal rate. The section including the Federal Reserve rate remains in the tariff, although superseded by the amendment.

However, Liberty was correct in stating that every order approving Northern's cost of gas rates since 2012 included the Federal Reserve rate, although it appears the orders issued after the 2018 change to Northern's interest rate were in error.

The substance of Liberty's motion remains. The Federal Reserve rate is and has always been in Liberty's tariff. The Commission has always approved the Federal Reserve rate in Liberty's cost of gas dockets. Thus, Liberty maintains its request that the Commission reconsider its finding that including the Federal Reserve rate in the 2022 order was "error."

Thank you.
