Dear Chairman Goldner:

**Re: DG 22-057; Liberty Utilities (EnergyNorth Natural Gas) Corp. d/b/a Liberty-Keene  
Division  
Winter 2022-2023 Cost of Gas – February 2023 Monthly Cost of Gas Adjustment**

On behalf of Liberty Utilities (EnergyNorth Natural Gas) Corp. d/b/a Liberty-Keene Division (the “Company”) and in accordance with New Hampshire Public Utilities Commission (the “Commission”) Order No. 26,716 (Oct. 31, 2022) in Docket No. DG 22-057, I enclose for filing the Company’s (February) calculation of its projected collection of gas costs for the 2022-2023 Winter season ending April 30, 2023.

In preparing the February 1, 2023, cost of gas adjustment calculation, the updated commodity portion of the calculation reflects a 1.312% increase in gas costs. At this time, the revenue collections appear to be less than expected through December. The Company is reviewing the Keene customers bills and will make any adjustments necessary in 2023. As a result, the reported revenue is not being used as a basis in determining the total over/under collection for the rate adjustment.

The Company has elected not to update the rate for February 1, 2023, and to keep the current rate of \$1.8120 in effect. The calculated over/under balance as a percentage of total estimated winter period gas costs is less than 2% of the overall cost of gas.

**Cost of Gas Rates (\$ per therm)**

	<u>Current Rate</u>	<u>2/1/23 Rate</u>	<u>Change</u>
Cost of Gas Excluding Gas Assistance Program	\$1.8120	\$1.8120	\$0.00

Thank you for your attention to this matter. Please do not hesitate to call if you have any questions.

Sincerely,

/s/James M. King
