Re: Northern Utilities, Inc., Docket DG 22-059,
September 2023 Monthly Cost of Gas Report

Chair Goldner,

Pursuant to Commission Order No. 26,713 in Docket DG 22-059, enclosed is Northern Utilities Inc.'s ("Northern") current calculation of its projected over or under-collection of gas costs for the 2022-2023 summer season.

Northern's current calculation of costs has been updated to reflect actual costs and revenues for May through August 2023 and NYMEX futures prices as of September 21, 2023. The updated calculations indicate that a rate change is not required at this time. Support for this decision is provided in the attached summary and tables.

If you have any questions regarding this filing, please do not hesitate to contact me or Chris Kahl at (603)773-6425.

Sincerely

A handwritten signature in black ink, appearing to read "P. H. Taylor", with a long horizontal flourish extending to the right.

Patrick H. Taylor
Chief Regulatory Counsel
