To Whom It May Concern: I am writing to express my view that the NEM credit extended to solar owners not be reduced. Solar has a positive impact for all, including non-solar residents including myself. NH should do everything possible to encourage the further adoption of renewable and other forms of non-fossil fuel energy overall as quickly as possible. Nuclear is only a temporary answer, and there is no solution in sight for protecting society from its waste that will remain highly toxic for more than 10,000 years. Thank you for forwarding this message to all concerned and have a great day. Sincerely, Peter Miller
