---

**Governor Sununu,**

**(cc: NH-PUC, NH-DOE)**

**The NH Public Utilities Commission is about to release an Order concerning PUC Docket DE 22-060 on Changes to the Current Net Metering Tariff Structure. I understand a Settlement Agreement has been filed by the three investor-owned electric utilities, Clean Energy NH, Conservation Law Foundation (CLF), the Office of the Consumer Advocate (OCA), and the NH Hydro Association.**

**I urge the PUC to accept this Settlement Agreement. A couple weeks ago I had a solar company out to my house to give me a quote on a rooftop system. We've been electrifying our house over the past few years, replacing failing equipment and vehicles with heat pumps and an electric vehicle. The plan all along was to invest in solar to offset and stabilize our electric costs after making the leap to electric. I'm alarmed to realize net metering is actually in jeopardy. Going solar is just not possible without net metering. For me and for many others.**

**I am copying the PUC Clerk on this email so that my concern and support for the Settlement Agreement will be entered into the docket.**

**Sincerely,**

**Sarah Brock**
