Governor Sununu,

(cc: NH-PUC, NH-DOE)

I recently learned that the NH Public Utilities Commission is about to release an Order concerning PUC Docket DE 22-060 on Changes to the Current Net Metering Tariff Structure. I understand a Settlement Agreement has been filed by the three investor-owned electric utilities, Clean Energy NH, Conservation Law Foundation (CLF), the Office of the Consumer Advocate (OCA), and the NH Hydro Association.

I urge the PUC to accept this Settlement Agreement.

As a member of the Derry energy committee we have worked very hard to develop a 2.25 MW project that will allow the committee to achieve net zero upon completion of this project in 2025, meeting the goal set out in the charter by the town.

We have a PPA contract ready to start construction pending final review by NH wildlife team at the last minute. Any more delay or uncertainty will greatly jeopardize the project and Derry's environmental goals.

I joined the committee, since I have been involved with energy and conservation throughout my career as a professional electrical engineer. I would personally like this project and all that it achieves for the town and state to be my personal best.

I am copying the PUC Clerk on this email so that my concern and support for the Settlement Agreement will be entered into the docket.

Sincerely,

Michael Fodiman PE

Derry Net Zero Task Force
