Subject: Net Metering Docket 22-060

EXTERNAL: Do not open attachments or click on links unless you recognize and trust the sender.

Please enact this essential policy to keep NH moving forward. Net Metering is a valuable tool that we have experience with. It needs to be extended and expanded.

I have enjoyed net metering for over a decade. It works well. Harvesting free fuel reduces my electricity expenses and is consistent with the initial line in our State's motto- 'Live Free...'

It also saves us money by reducing strains on the grid particularly in transmission needs and as we expand distributed energy resources supports improvements in the resiliency of our distribution network.

Thank you

With wishes for sunshine, success and good health,

John Kondos
