Good morning,

Our firm is a local Architectural firm in Manchester who works with most commercial and residential client and project types. We greatly encourage the approval of docket 22-060 for tomorrow's session. Net Metering is extremely valuable and critical to the growth of our state's energy initiatives. It allows for renewable energy technologies to continue to progress in their development, efficiency and attainability for the public which is necessary.

Please approve these docket terms and please consider bolstering the net-metering program in our state to align with adjacent states energy initiatives.

Best,

Michael McKeown, AIA, LEED AP BD&C
