Governor Sununu, et al,

(cc: NH-PUC, NH-DOE)

I learned on NHPR radio this morning that the NH Public Utilities Commission is about to release an Order concerning PUC Docket DE 22-060 on Changes to the Current Net Metering Tariff Structure. I understand a Settlement Agreement has been filed by the three investor-owned electric utilities, Clean Energy NH, Conservation Law Foundation (CLF), the Office of the Consumer Advocate (OCA), and the NH Hydro Association.

I urge the PUC to accept this Settlement Agreement. My comment doesn't have much to do with the price of eggs; I currently serve on the Police Building Advisory Board to the Select Board of the Town of Sandwich. We are trying to do our part for a better energy future by making our new police station as close to net zero as we can make it. Each individual and our government need to do all things possible to promote clean energy. Please keep net metering.

I am copying the PUC Clerk on this email so that my concern and support for the Settlement Agreement will be entered into the docket.

Sincerely,

VANDERPOEL ADRIANCE III,
