Governor Sununu,

(cc: NH-PUC, NH-DOE)

I recently learned that the NH Public Utilities Commission is about to release an Order concerning PUC Docket DE 22-060 on Changes to the Current Net Metering Tariff Structure. I understand a Settlement Agreement has been filed by the three investor-owned electric utilities, Clean Energy NH, Conservation Law Foundation (CLF), the Office of the Consumer Advocate (OCA), and the NH Hydro Association.

**I urge the PUC to accept this Settlement Agreement.** I live in a densely shaded neighborhood in Concord so I don't have the ability to individually invest in solar energy at this time. I am interested, though, in using clean power at whatever level I can. For example, Concord is working on plans for building a solar array on the capital city's capped landfill that will benefit residents of the city like myself. I don't want to see that plan, as well as the solar industry in New Hampshire in general, grind to a halt, lose time and staff, and have to start up again.

I am copying the PUC Clerk on this email so that my concern and support for the Settlement Agreement will be entered into the docket.

Sincerely,

Joanne Davis

Concord, NH
