Dear Governor Sununu,

(cc: NH-PUC, NH-DOE)

I understand that the NH Public Utilities Commission is about to release an Order concerning PUC Docket DE 22-060 on Changes to the Current Net Metering Tariff Structure. I understand a Settlement Agreement has been filed by the three investor-owned electric utilities, Clean Energy NH, Conservation Law Foundation (CLF), the Office of the Consumer Advocate (OCA), and the NH Hydro Association.

I am very concerned about the future of net metering in NH (PUC Docket DE 22-060). I very strongly hope the PUC will accept this Settlement Agreement.

We have solar panels on our duplex along with our neighbor and have appreciated how well they work and the savings they provide us. After the expense of installing them, it seems very unfair if we don't get reimbursed for the extra energy our panels generate on sunny days. We very much want to help the environment by providing clean energy we don't need to our utilities. We also want to see more solar panels and projects in New Hampshire that this incentive encourages. NH is a great state. Let's keep it that way and provide the incentives needed to continue to convert as much energy production as possible to renewable green energy.

I am copying the PUC Clerk on this email so that my concern and support for the Settlement Agreement will be entered into the docket.

Sincerely,

Barbara Jo Kingsley
