---

Governor Sununu,

I recently learned that the NH Public Utilities Commission is about to release an Order concerning PUC Docket DE 22-060 on Changes to the Current Net Metering Tariff Structure. I understand a Settlement Agreement has been filed by the three investor-owned electric utilities, Clean Energy NH, Conservation Law Foundation (CLF), the Office of the Consumer Advocate (OCA), and the NH Hydro Association.

*I urge the PUC to accept this Settlement Agreement. I am a 29 year old renter and I don't have the means to invest in solar energy... yet. I've made as many energy efficient transitions in my life as I financially could at this time. I want to see New Hampshire transition to clean energy and solar is going to be a huge part of that. I don't want to see the solar industry grind to a halt, lose time and staff, and have to start up again. That's just bad for everyone. I care about the state I grew up in and want it to be a place where I can raise my children one day. Again, I strongly urge the PUC to access this Settlement Agreement.*

I am copying the PUC Clerk on this email so that my concern and support for the Settlement Agreement will be entered into the docket.

Sincerely,

Anna Li Preble
