Governor Sununu,

(cc: NH-PUC, NH-DOE)

I recently learned that the NH Public Utilities Commission is about to release an Order concerning PUC Docket DE 22-060 on Changes to the Current Net Metering Tariff Structure. I understand a Settlement Agreement has been filed by the three investor-owned electric utilities, Clean Energy NH, Conservation Law Foundation (CLF), the Office of the Consumer Advocate (OCA), and the NH Hydro Association.

I've had solar on my own home for many years. Net metering makes it possible for me to use all the power I produce, even if I can't use it at the moment it is generated. Otherwise, I'd need a battery to store excess power for later use. I'd much rather my excess energy go to the grid and into my neighbors' homes. I would hate to see net metering go away and prevent others in my community and throughout the state from accessing the benefits I get as a solar homeowner with net metering.

I urge the PUC to accept this Settlement Agreement.
