Subject: In support of Docket 22-060, the NEM settlement agreement (with modifications by CPCNH)

EXTERNAL: Do not open attachments or click on links unless you recognize and trust the sender.

Dear Clerk of the NHPUC,

This is to register my support for the proposed NEM settlement agreement now under consideration. Over the years, there have been concerns about the possibility of cost-shifting from an NEM program, but the Dunsky Report on VDER from 2022 pretty much settled that question, showing that the fears are not supported by data. Clean Energy NH sponsored an independent follow-up study for NH that showed a net benefit to ALL consumers from expanding NEM within our state.

Let's move ahead on this part of our overall transition toward cleaner and safer energy sources.

Thank you

Dr R Seidler
