Governor Sununu,
(cc: NH-PUC, NH-DOE)

I recently learned that the NH Public Utilities Commission is about to release an Order concerning PUC Docket DE 22-060 on Changes to the Current Net Metering Tariff Structure. I understand a Settlement Agreement has been filed by the three investor-owned electric utilities, Clean Energy NH, Conservation Law Foundation (CLF), the Office of the Consumer Advocate (OCA), and the NH Hydro Association.

I urge the PUC to accept this Settlement Agreement.

I see solar power as a supplement to our energy needs now and in the future. Having net energy metering makes it fiscally affordable for individuals to participate in lessening the demand on our power grid and controlling their energy costs. In addition, it has created a growing renewable energy business and employment for many NH residents. I have a system that is still going strong after 35 years.

I am copying the PUC Clerk on this email so that my concern and support for the Settlement Agreement will be entered into the docket.

Sincerely,

Steve Danielovich
North Sandwich
