Governor Sununu,
(cc: NH-PUC, NH-DOE)

I recently learned that the NH Public Utilities Commission is about to release an Order concerning PUC Docket DE 22-060 on Changes to the Current Net Metering Tariff Structure. I understand a Settlement Agreement has been filed by the three investor-owned electric utilities, Clean Energy NH, Conservation Law Foundation (CLF), the Office of the Consumer Advocate (OCA), and the NH Hydro Association.

I urge the PUC to accept this Settlement Agreement. The current tariff was a major incentive in our decision to invest \$31,000 to install solar panels on our roof. The thought that you might lessen your enthusiasm for reducing our reliance on a fuel source that has so damaged our environment is difficult to understand. You would be wiser to continue to find ways to collaborate with us to insure that our children and grandchildren will be the recipients of the miracle of clean energy.

I am copying the PUC Clerk on this email so that my concern and support for the Settlement Agreement will be entered into the docket.

Sincerely,
Joe Hayes
