I am writing in support of the Docket 22-060 proposed settlement agreement, as modified with CPCNH's recommendations. Net metering is critical to the growth of solar generation in our state, which helps business and homeowner generators reduce their electricity costs. Generators should be compensated fairly for the electricity they export to the grid and the benefits this provides to utilities and to the system as a whole.

Thank you for your consideration.

Gabrielle Watson, Chair, Tamworth Energy Committee
