Governor Sununu,  
(cc: NH-PUC, NH-DOE)

We recently learned that the NH Public Utilities Commission is about to release an Order concerning PUC Docket DE 22-060 on Changes to the Current Net Metering Tariff Structure. We understand a Settlement Agreement has been filed by the three investor-owned electric utilities, Clean Energy NH, Conservation Law Foundation (CLF), the Office of the Consumer Advocate (OCA), and the NH Hydro Association.

**We urge the PUC to accept this Settlement Agreement.**

*We have had solar on our own home for many years. Net metering makes it possible for me to use all the power we produce, even if we can't use it at the moment it is generated. Otherwise, we would need a battery to store excess power for later use. We would much rather our excess energy go to the grid and into our neighbors' homes. We would hate to see net metering go away and prevent others in our community and throughout the state from accessing the benefits we get as a solar homeowner with net metering.*

We are copying the PUC Clerk on this email so that my concern and support for the Settlement Agreement will be entered into the docket.

Sincerely,

Jean and Joel White
