Dear Governor Sununu-

I recently learned that the NH Public Utilities Commission is about to release an order concerning PUC Docket DE 22-060 on changes to the current Net Metering Tariff structure. I understand a Settlement Agreement has been filed by the three investor-owned electric utilities, Clean Energy NH, Conservation Law Foundation (CLF), the Office of the Consumer Advocate (OCA), and the NH Hydro Association.

I urge the PUC to accept this Settlement Agreement.

I paid for solar panels to power my home, and send the extra energy back to the grid. I made a significant investment to do this, why shouldn't I be paid in a fair way for the power I produce? This Agreement recognizes the effort that other New Hampshire individuals have made to contribute to the production of clean power, and grow an industry that creates jobs and increases the energy independence of our State. Why would you not do everything you can to support power sources that combat climate change?

I am copying the PUC Clerk on this email so that my concern and support for the Settlement Agreement will be entered into the docket.

Sincerely,

BJ Entwisle
